Let us preserve  
your family legacy

Specializing in multimedia,  
family biography,  
history, and  
Interactive Genealogy™

## Personalized Genealogy Services

### What is an Interactive Genealogy™?

Interactive Genealogy™ is a custom tailored approach to preserving your family history which can include old documents, newspaper clippings, scrapbooks and other cherished possessions. Your family history is brought to life in a format which will allow you to view your legacy in a concise and organized style.

### Why should I consider an Interactive Genealogy™

It is a great way to safeguard your special photographs, mementos, and family records for generations to come. A custom designed family tree created by [AFAMILYTREE.NET](http://AFAMILYTREE.NET) will enable your family members to learn and enjoy your unique family history. Interactive Genealogy™ is easy for anyone to use regardless of internet and computer experience.

### What if I don't know where to start?

We know how overwhelming genealogy projects can be and we take pride in our ability to simplify the process for you. No matter how disorganized your clippings, photos, and other documents are, we will compile your family history into a readable, easy to navigate medium of your choice. We are always happy to provide guidance, suggestions and ideas for preserving your family legacy for future generations.

### I don't know if I want Interactive Genealogy™. Can you still help me?

YES! We can help preserve and protect your documents from deterioration which will occur naturally over time. We use "tried and true" methods for preservation and use only archival quality supplies.

While in our possession all documents are stored in a fire-proof and water resistant safe.

## Services

We offer a large variety of services to meet your needs including (but not limited to):

- Creating a custom designed Interactive Genealogy™
- Recording stories and memories
- Creating a personalized web site for your family tree or Interactive Genealogy™
- Researching your family history
- Documenting memoirs
- Document preservation and restoration
